

Aryan Yadav

Machine Learning Engineer • Computer Vision • GenAI Developer

ay6033756@gmail.com | +91 8318695055 | Greater Noida, India | linkedin.com/in/aryan0203 | github.com/aryxn-builds | [Portfolio](#)

PROFESSIONAL SUMMARY

B.Tech CSE student with hands-on experience building AI-powered applications using Python, LangChain, RAG, and LLM APIs (Anthropic Claude). Holds multiple Anthropic certifications covering Claude API development, agentic patterns, and Claude Code. Passionate about building real-world GenAI products and eager to contribute to a fast-paced AI/ML engineering team.

EDUCATION

IEC College of Engineering & Technology <i>B.Tech – Computer Science Engineering (AI/ML)</i>	Greater Noida, India <i>Sep 2023 – Present</i>
Vishnu Bhagwan Public School <i>12th Standard</i>	Prayagraj, India <i>2022 – 23</i>
Vishnu Bhagwan Public School <i>10th Standard</i>	Prayagraj, India <i>2020 – 21</i>

TECHNICAL SKILLS

Languages: Python (primary)
AI / ML: scikit-learn, TensorFlow, Keras, XGBoost, ANN, CNN, RNN, LSTM/GRU
GenAI & LLMs: LangChain, HuggingFace Transformers, Anthropic Claude API, Prompt Engineering, RAG Pipelines
Computer Vision: OpenCV, YOLOv8, MediaPipe
NLP: TF-IDF, NLTK, tokenization, embeddings, text classification
Data: Pandas, NumPy, Matplotlib, feature engineering, data preprocessing
Deployment: Streamlit, FastAPI, Vercel
Tools: Git, GitHub, Jupyter, VS Code, Supabase
Concepts: Supervised & Unsupervised Learning, Model Evaluation, Data Preprocessing

PROJECTS

Toolvise – AI Tool Discovery Platform <i>Python, LangChain, RAG, HuggingFace, Streamlit</i>	2025
- Built an AI-powered tool discovery and recommendation platform that finds the right AI tools for any use case from natural language queries. - Implemented a full RAG pipeline with HuggingFace sentence-transformer embeddings to retrieve and rank tools by semantic similarity to user intent. - Integrated LangChain for retrieval chain orchestration and deployed the end-to-end application on Streamlit with real-time query handling.	
Customer Churn Prediction <i>Python, TensorFlow, Keras, Streamlit</i>	2024
- Trained an ANN on tabular customer data with class imbalance handling and categorical encoding; achieved 86% test accuracy after hyperparameter tuning with Keras Tuner. - Deployed as a Streamlit app where users input feature values and receive real-time churn probability scores.	
Trader Profit Prediction <i>Python, scikit-learn, XGBoost, Pandas</i>	2024
- Built an end-to-end regression pipeline on historical trade data covering feature engineering, outlier handling, and k-fold cross-validation. - XGBoost outperformed Linear Regression and Random Forest after grid search, achieving the lowest RMSE across test folds.	
Real-Time Object Detection <i>Python, YOLOv8, OpenCV, MediaPipe</i>	2024
- Deployed YOLOv8 on a live webcam stream; tuned confidence thresholds and NMS to maintain 25+ FPS across multiple simultaneous object classes. - Overlaid real-time bounding boxes, class labels, and confidence scores on the video feed.	
IMDB Sentiment Classification <i>Python, TensorFlow, Keras, NLP</i>	2024
- Built an LSTM-based sequence model on IMDB 50K reviews with tokenization, padding, and embedding layer; achieved 88% validation accuracy. - Applied dropout regularization to reduce the overfitting gap from 14% to under 5%.	

CERTIFICATIONS & ACHIEVEMENTS

Claude with the Anthropic API <i>Anthropic – ID: gbxfxgv3tanj</i>	Mar 2026
Claude Code in Action <i>Anthropic – ID: z5qwgk2bfyba</i>	Mar 2026
Introduction to Agent Skills <i>Anthropic</i>	2026
Claude 101 <i>Anthropic</i>	2025
Complete GenAI with LangChain & HuggingFace <i>Udemy – Krish Naik</i>	2025
Machine Learning A-Z: AI, Python & R <i>Udemy – 43 hours</i>	Nov 2025
Smart India Hackathon 2025 <i>Participant – Ministry of Education, Govt. of India</i>	Sep 2025
GDG Solution Challenge 2025 <i>Google Developer Groups On Campus</i>	2025
AI Tools Skill Up <i>GeeksforGeeks x NationSkillUp</i>	2025
Gen AI Study Jam – Cohort 2 <i>GDG On Campus IEC – Google Cloud</i>	Nov 2024

OTHER

Interests: Chess, Video Editing
